Employment history

Design & Product, CAPinside, 03/20 - present Hamburg, Germany

Senior designer for an exciting fintech start-up - demystifying investment culture and making investing accessible and available to everyone.

Designer and Creative Technologist, Freelance, 09/16 - 02/20 San Francisco, CA and London, UK

In my pursuit of two graduate degrees, I explored emerging and immersive technologies. Topics covered included supervised machine learning, materials research, the fundamentals of electronics, IoT, Bluetooth LE, live computational performance, generative visuals, data visualization, projection mapping, creative coding, physical product design, rapid prototyping, computer vision, AR, working with Arduino & Raspberry PI and gestural interaction design.

Head of Product Design, Coffee Meets Bagel, 11/15 - 09/16 San Francisco, CA

As manager of the design team, I supervised the design of iOS and Android apps, provided career mentorship to junior designers, and served as a liaison to other departments making sure design decisions were well articulated. I managed project milestones for my team as well as being lead designer - designing flows, systems, UI, UX, and interaction. I also supervised and organized the prototyping of new features and ran usability testing sessions, aggregating, evaluating, and implementing feedback.

Senior Product Designer, Hotel Tonight, 2/15 - 11/15 San Francisco, CA

Led the redesign of the iOS app. UX design, UI design, and interaction design for new mobile features. Art Directed implementation of new design and interactions and worked closely with development and QA teams.

Product Designer, Houzz, 1/14 - 2/15 Palo Alto, CA

I did visual design, interaction design, user experience design, and motion design to help create a cohesive, beautiful user experience for the Houzz iOS and Android apps. I also contributed to the Houzz video projects as a title designer and art director.

Senior Animator and Designer, Apple, Inc., 09/07 - 06/13 Cupertino, CA

Designed user experience of consumer applications on MacOS and iOS which included motion of UI and transitions between states in iPhoto, Aperture, Garageband. Designed content including titles, themes, and slideshows for iMovie and iPhoto. Prototyped iteratively, developed and nurtured strong relationships with engineers. Prepared specs and final assets, worked within OS constraints, and acted as an art director for implementation of designs. The iMovie titles I designed and coded were used by 3 Million people!

Broadcast Designer and Animator, Freelance, 03/03 - 08/07 New York City, NY

Design, Animation, Compositing, Editing, Art Direction. Clients Included: Big Film Design, Nickelodeon, MTV, BAM, Sesame Workshop, Bright Eyes Tour Visuals, Nike, The History Channel, NBC Universal, and Discovery Kids.

Education

MA Computational Arts, Sept 2019 - First Class/Distinction (GPA 4.0)
Explored combining design, art, and technology using creative computation
Goldsmiths University of London, UK

MFA Design, 2018 - GPA 4.0
Interdisciplinary Design including sensor technology and physical computing
University of California, Davis, CA

B.S. Cinema and Photography
Concentration in Film Production with double Minors in Audio Design and Italian
Ithaca College, Ithaca, NY

International

Dual Irish and United States citizenship

Italian Language Skills (non-native)

Selected animation and writing awards

Best of Berkeley Film Festival Award

2 Silver Telly Awards
